Other accessible collections, services and accommodations

- Braille collection in Children’s Room
- Playaways, Books on CD, Playaway Views, Wonder books. (audio books in different formats so people can read and listen, listen with headphones, listen on a computer, or watch a movie on a device).
- Libby and hoopla (download books, audiobooks, movies and more to your personal device).
- Drive-up Pick-up: Not feeling up to coming into the library? Call ahead and we’ll run the book out to your car from our two designated spaces in front of the library.
- Self Check Out in the Children’s room
- Quiet spaces in the back of the library
- Hearing Loop in Community Room and Loop Listeners available

If you or your group would like specific types of services or events at the library please let us know! We love suggestions.

The Webster Public Library has Sensory Bags at all service points. Each Sensory Bag has:

- Fidget Toys
- Noise Cancelling Headphones
- ID cards
- Cue card

Any person who wants to use the sensory bags/tools can ask a staff member to borrow one during their visit. People can return them at the service point upon leaving the library.

There are signs around the library that help people know which areas are designated as headphone areas and quiet areas. If you see this image above you know you’ve gone to the right designated area for assistance or a quiet space or the need for headphones.

We have a sensory space in the kids room with a sensory station. Kids can enjoy the bubble machine, fish and lights. They can play with the fidget toys, walk on the sensory tiles and enjoy a fun experience. There is a sensory cube for kids to decompress.

If you have any questions about any of these tools and services please ask at a service desk.
